SOLUTIONS

PM207 Electronic
Semi-Automatic Table top
PP Strapping Machine

PM207 *Electronic*

The PM207, with its direct drive DC motor technology, Electronic control of tension force and welding process, results in an excellent consistent strapping result, high reliability and a long service life.

The compact accessible design, with 30% fewer moving parts than conventional machines, requires minimal maintenance and only a few service parts.

In short, a new generation of machines for semi-automatic strapping of low to medium volumes.

Key features you should know about

- CE certified
- Direct drive motors, less moving parts
- Electronic tension control
- Adjustable welding/cooling time
- Light, compact design
- Easy to operate by multiple users
- Lean maintenance and easy access for service
- Hinged stainless steel top plate , with safety switch.
- Castor wheels with brakes
- Energy saving by automatic motor stop
- Reliable P.C. board electric control
- Sealing temperature control light

Technical Data

Strap quality	Polypropylene PP	Power supply	230V / 50Hz
Strap dimensions		Power consumption	0.25 kWh
• widths	5.0 – 15.5 mm (1.9-6")	Dimensions	
• thickness	0.45 – 0.65 mm (0.18-0.26")	• length x width	850 x 560 mm (33.5x22")
Strap tension, adjustable	80 – 450 N (18-101 lbf)	• table height, adjustable	780 – 950 mm (31- 37.4")
Sealing method	Heat seal	Weight	70 kg (154.3 lb)
